

Why *YOU* should join The Green Party

Not so long ago we, the people, used to be able to set up a table in a public place & register voters. Though our leaders squawk about “democracy” & make us fund & fight their wars for it, their new laws make it almost a criminal offense to register voters!

Do you want to *STAY* embedded with one of the Twin Powers? Are you on board with voting *FOR* the lesser of 2 evils, for ever & ever? *OR* do you want to see a better direction for our nation away from the two parties who have kept all others *OUT* of the debate? They *NOW BOTH OWN THIS MESS?! It’s time to leave the two party system.*

But don’t just give up & stop using your right to vote. If our votes did not matter they would not spend so much to *BUY* them every election! Don’t head out screaming into the night & just join a party that has no platform, such as “Independent” or “No Party Affiliation”. These choices will leave you direction-less. Instead *LEAVE* the corporate run 2 party system & choose a party that has your values & direction.

Want candidates that *DO NOT* take money from corporations & special interest PACs? ...

Want to stand with the party that sees free public education through college as a right? ...

Want to see our infrastructure repaired & our pooled resources used here? ...

Want open *DISCLOSURE* of your countries dealings as the norm? ...

Want fair & balanced wages, Unions & workers rights? ...

Want common sense & good conscience in politics? ...

Want an end to the fake wars on drugs & poverty? ...

Want corporations & religion *OUT* of politics? ...

Want clean energy instead of toxic? ...

Want peace?

Register / Vote Green Party!

We understand that it *IS* hard to believe anyone who chooses to run for office, because America has been mired in this corrupt system for *SO LONG*. But there is a way out.

Keep the faith ... we have. Register & Vote Green as a commitment to your own best interests.
